## OWENS HELD IN CHICAGO; DIXON CASE PUT OVER

### Moline Communist Is Unable to Appear Here for Trial.

Edgar Owens, of Moline, who was indicted yesterday in Chicago, together with a half hundred others, charged with conspiracy to overthrow the government, was unable to be present in the Lee county circuit court this morning when the case of the City of Dixon against him was called. H. A. Brooks, attorney for Owens, presented an affidavit to Judge R. S. Farrand when the case was called, praying a continuance of the case until the April term.

The affidavit set forth that the defendant, Edgar Owens, was detained in Chicago on a legal procedure which came up today and was under bonds of \$10,000 to appear in the Chicago court. Accompanying the affidavit was a letter written by Edgar Owens, on Communist Labor Party stationery, stating that he was detained in Chicago on a court case and could not be in Dixon today when his case was called. City Attorney Robert H. Scott was very anxious to have the case come to trial as arranged on the trial list, but the motion for continuance until the April term, as filed by Owens' local representative, Attorney H. A. Brooks, was granted by the court.

**Lloyd Surrendered Today.**  
Chicago, Jan. 22.—William Brock Lloyd, millionaire "parlor socialist," and sergeant at arms of the Communist Labor party, indicted yesterday for conspiracy to overthrow the government by force and for advocating the overthrow of the government, surrendered today to State's Attorney MacLay Hoyne.

Lloyd went before Chief Justice Robert E. Crowe of the Criminal court and furnished \$10,000 bond for his appearance for trial. The bond was signed by William A. Cunneen, Lloyd's attorney.

Lloyd recently furnished bond for William D. (Big Bill) Haywood, former secretary of the I. W. W. when Haywood was released from Leavenworth penitentiary and again when Haywood was caught in State's Attorney Hoyne's red roundup.

**HEAVY BONDS FIXED.**

Capias were prepared today, returnable Monday. Bonds were fixed at \$10,000 and \$5,000 each.

## GOMPERS GIVES VIEWS AGAINST SEDITION BILL

### Says Desired Results Will Not Be Accomplished.

By Associated Press Leased Wire  
Washington, Jan. 22.—Disapproving both the Sterling and Graham sedition bills, Attorney General Palmer, in a letter today to Chairman Campbell of the house rules committee, proposed a new measure which would provide fines not exceeding \$10,000 and imprisonment of not more than 20 years for persons convicted of attempting to overthrow the government or of acts of violence against the government or its employees or agents while in the discharge of their official duties.

**Strikes Are Aspirations.**  
Strikes and cessations of work, Gompers said, are nothing more or less than an aspiration by working people for better living conditions. Countries where there are no strikes are the most backward, he added.

Asserting that fines and imprisonment were provided now for overt acts, the witness said the bill had one purpose, to make restrictions, to afford punishment for things now lawful.

"Although laborers may be unorganized today," he continued, "they organize tonight because they want better conditions and better life. Such a movement must be of the mass character; they could not go into executive session. Under this bill that would be prohibited."

"Such meetings would not be unlawful under this bill," said Representative Snell, Republican, New York.

In reply President Gompers charged the bill might even prevent a plan to elect the president by direct vote. "The intent of the bill," Representative Snell interjected, "would not effect any one unless guilty of force and violence."

"There is no disposition to punish any one except for physical force," Chairman Volsted of the judiciary committee said. "There is nothing to prohibit moral force. No disposition to take away rights to organize orderly or to advocate change of government."

"That would be for the courts to decide," Gompers replied.

The measure also would prohibit writings or teachings which constitute sedition.

The Graham bill provides the death penalty in cases of loss of life due to active violence against the government and these provisions have been attacked as too severe. The Sterling bill has been assailed on the ground that it would set up a press censorship in peace time and for other reasons.

By Associated Press Leased Wire  
Washington, D. C., Jan. 22.—Attorney General Palmer did not appear today before the house rules committee to present his views on the anti-sedition measures in dispute between the house and senate. Representative Graham, republican, Pennsylvania, author of the house bill, also was absent because of illness.

Samuel Gompers, president of the American Federation of Labor, opened the hearing in opposition to the bills.

Declaring that the measure would make "all free men slaves," Mr. Gompers asked if additional sedition legislation were necessary.

"Will it bring solidity, a better welding of our institutions or will it work the direct opposite to the desired result?" he asked.

The history of other nations, he said, ought to guide America in this matter.

Centering his attack on the provision of the bill prohibiting the circulation of all literature and periodicals of radical nature, Mr. Gompers said the workers of the United States were seeking industrial changes and the improvement of social and moral conditions and that the bill would prevent the use of moral force in labor's campaign.

## SEPARATION OF SIX STATES WAS CARRANZA'S AIM

### Texas Dist. Attorney Submits Evidence to Prove Charge.

By Associated Press Leased Wire  
San Antonio, Tex., Jan. 22.—It was because a "state of war" existed between the United States and Mexico that Carranza once convicted of murder and bridge burning on the American side of the border, were restored to their county as free men, John A. Valls today told the senate subcommittee investigating the Mexican situation.

Valls is the district attorney of the Forty-ninth District of Texas. He prosecuted those Mexicans captured after the raid on San Ygnacio in 1916 and secured their conviction. They were sentenced to death. The court of criminal appeals on April 19, 1917, decided the lower court had no jurisdiction since at the time of their assault and capture "a state of war existed between the United States and Mexico."

Judge Valls declared the raids were directed under the provisions of the "plan of San Diego," which had for one of its objects the separation of six states from the United States. He submitted documentary evidence to show the raids were planned and carried out by men of Carranza's army and that a portion of the recruiting was done by Nicoforo Zambrano of Monterrey, then treasurer general of the republic of Mexico.

The raid on San Ygnacio in which several American soldiers were killed and bridges were burned was preceded by an interview by Lieut. Kyle Ricker of the American Army and Federico Gutierrez Zapata, commander of the Carranza garrison just across the border line.

**Zapata Led Raiders**  
Zapata promised to send a force to intercept the bandits that were known to be moving toward the border. The evidence, Valls said, showed Zapata himself led the raiders the next night. (Continued on Page 2)

## PLATFORM OF SOCIALISTS IS INTRODUCED

### Is Made Part of Hearing of Ousted New York Members.

By Associated Press Leased Wire  
Albany, N. Y., Jan. 22.—Julius Gerber, secretary of the New York local of the Socialist party, was the first witness called today at the trial before the assembly judiciary committee of the five suspended socialist assemblymen charged with disloyalty.

Committee counsel began presentation of evidence after Chairman Louis M. Martin had denied an application by Morris Hillquit, chief counsel for the defense, to introduce certain "admissions of fact," which he said would serve to clear the issues and save calling many witnesses. Objection was taken by John B. Stanchfield committee counsel, on the ground that his side considered itself able to select what evidence it thought necessary to establish the desired facts.

**Evidence Introduced.**  
As soon as Gerber had been sworn, Mr. Stanchfield obtained from him a copy of the constitutional platform of the Socialist party in 1917 which was introduced in evidence without objection by the defense.

Mr. Stanchfield also introduced in evidence the state constitution of the Socialist party, from which he read excerpts, including one providing that candidates for public office should on receiving nomination leave their resignations with the party to insure their fulfilling party commands.

By-laws of the New York county socialist organization also were introduced.

By Associated Press Leased Wire  
Chicago, Jan. 22.—A world-wide search for Herman J. Blumson, charged with defrauding Chicago banks of \$300,000 on forged bills of lading, ended today when word was received by State's Attorney MacLay Hoyne that the fugitive was under arrest in Johannesburg, South Africa.

Secretary of State Lansing and Governor Lowden have been asked to furnish extradition papers and detective Sergeant Edward Kelly who located Blumson in South Africa, after trailing him since last August will bring him back.

## NEW FRENCH CABINET TO RETAIN ALLIANCES

### Premier Millerand Paid Tribute to Georges Clemenceau.

By Associated Press Leased Wire  
Paris, Jan. 22.—Maintenance of "the Alliances that have saved the world" will be one of the chief aims of the new cabinet in France, Premier Millerand announced in his ministerial declaration of policy today.

The declaration began with a graceful reference to Georges Clemenceau, the retiring premier. Mr. Millerand pointed out that he had been called "to the formidable honor of succeeding a ministry presided over by a great patriot who in the eyes of the world is the incarnation of victory."

"The execution of all the clauses of the treaty of Versailles will be law to us. We shall pursue it without violence or feebleness—with unshakable firmness. It includes the close and cordial maintenance of the alliance which has saved the world. Without our allies, those of the first as of the last hour, what trial would not have been in store for us? What would have been the fate of our allies if France had not served four long years as the cover to civilization?"

The bodies were found last night by Mrs. John Werts, a daughter of Spindler, who became alarmed at the non-appearance of the William Spindler family and with neighbors broke the lock on the Spindler home and found the bodies. ## U. S. REGULARS ARE HUNTING NEGROES IN ARKANSAS DISTRICT

### Governor Leads Party to Apprehend Rioters of Yesterday.

Dumas, Ark., Jan. 22.—One hundred and twenty-five Third Division regulars from Camp Pike, accompanied by Governor Charles H. Brough, arrived here on a special train at 5 a. m. today and will start at once in search of the negroes who yesterday attacked local officers and took from them Doe Haynes, a negro prisoner, wanted for stealing hogs. The negroes are at a settlement twelve miles east of here. The roads are almost impassable for motor traffic and the troops will march. Wagons will carry supplies and ammunition. It is believed there are fifty negroes in the settlement, most of them armed, but officers expect them to surrender when confronted by the troops.

Dumas is about sixty miles south-west of Elaine, Ark., scene of a negro uprising last October when a number of persons were killed before the outbreak was quelled by federal troops. Dumas is ten miles north of Winchester, headquarters of Robert L. Hill, alleged leader of the Elaine insurrectionists.

In order to facilitate the warehouse plan to the full extent of its ability, the government declares it will not only remove all import duties, regulations and needless customs formalities but also will afford the shipments special transportation facilities in Germany.

The government points out the desirability of the Hoover plan which would place its operation under the relief administration of the European children's fund, inasmuch as the arrangement would permit of the purchase in the United States of food supplies in shipload lots.

Issuance of the government's statement was intended to counteract an alleged misunderstanding in the United States with respect to the Hoover plan. The government expressed its acknowledgement to the American Society of Friends for its relief work among German children and promises that organization a full measure of assistance in the prosecution of the work.

## NITRATE PLANT GRAFT CHARGES BEING PROBED

By Associated Press Leased Wire  
Florence, Ala., Jan. 22.—More than a score of witnesses were waiting to be heard when the house war expenditures committee today resumed its investigation of the construction of Muscle Shoals group of war plants. Army officers in charge of the various projects already have told of conditions during construction and charges that the government property was hauled away in carload lots were made yesterday by W. H. McCarty of Birmingham, formerly employed by the Department of Justice as an investigator.

Chairman Graham indicated today that the committee would look further into McCarty's testimony.

Buildings claim that there was any waste it due to haste in getting the nitrate plants in shape to turn out explosives during the war.

The text of the premier's speech was received today at the Japanese embassy and made public. ## LOCAL SIGNS GIVE HUMORIST A CHANCE

A local humorist who apparently is not a believer in all signs, and who signs himself, "I. B. L.," has contributed a short sketch to one of the Chicago daily papers which is of considerable interest in Dixon. According to the article in the Chicago daily paper a sign in a local store window "Conveys the information, 'save money on clothes, buy now.' In the next window appears another sign announcing, 'empty barrels for sale.' We naturally ponder here and wonder what is the present market quotation on fig leaves."

## KENYON HAS SCHEME FOR SETTLEMENT OF INDUSTRIAL FIGHTS

### Elaborate Machinery Planned in Senator's Proposed Bill.

By Associated Press Leased Wire  
Washington, D. C., Jan. 22.—Elaborate machinery for settlement of disputes between capital and labor is proposed in a concurrent resolution introduced today by Chairman Kenyon of the senate labor committee.

President Wilson would be requested by congress to call a national industrial congress, composed of 300 invited delegates divided equally between labor unions and industry, who would recommend a plan for permanent industrial courts and also formulate a program of principles to govern future industrial relations.

It also is proposed that pending action by the national labor congress, the president establish a national labor board, to function temporarily like the war labor board in hearing industrial controversies.

### For Industrial Code.

Senator Kenyon told the senate that the preparation of an industrial code was the primary thing he sought.

"If employer and employee could get together and agree on an industrial code recognizing the eight hour day, a living wage, the right of collective bargaining and other fundamental matters," said Senator Kenyon, "then disputes over these fundamentals could be taken care of in the industrial courts."

"The conference proposed goes far beyond the present conference or the former one which ended in disaster. England tried this plan and it was successful."

"In the adjustment period through which we are now passing there exists no general national agency for the settlement of industrial disputes, or, for the determination of a general labor policy and no general arrangement has as yet been worked out by representatives of employers and employees as to the fundamental principles which should obtain in the adjustment of industrial relations."

"The general public has suffered much from this state of affairs and will suffer further loss and inconvenience if the present situation is allowed to continue."

## Swiss Favor Trial of Former Kaiser

By Associated Press Leased Wire  
Geneva, Switzerland, Jan. 22.—Swiss newspapers favor the extradition of former Emperor William from Holland. ### DEATH LIST GROWS

By Associated Press Leased Wire  
Chicago, Jan. 22.—The influenza epidemic in Chicago today was believed by health department officials to have passed its peak. There was a decrease in the number of new cases reported, but the death list for the last 24 hours reached sixty-one, the largest during any day since the outbreak began. The malady continued to appear in a mild form and Dr. John Dill Robertson, health commissioner, declared "the further the epidemic goes the more definite the mild character of the disease is proved."

Relief was promised from the serious shortage of nurses by announcement that the local Red Cross chapter had called its 2300 trained nurses into service, and that 100 trained nurses from the Visiting Nurses association were aiding authorities.

### Contagion Spreading

Spread of the contagion from Chicago and other northern Illinois points in southern Illinois was reported today by Dr. C. St. Clair Drake, the public health director.

"It is probable the disease will be general throughout the state," said Dr. Drake. "However the spread is not so rapid as a year ago."

Dr. Robertson issued a statement advising all persons to "Get nine hours sleep each night, sleep in a well ventilated but warm room, dress so you will not become overheated and I will promise immunity from the 'flu' and adding:

"If, in spite of precautions influenza attacks, go to bed, keep warm, and call a doctor."

## Corn Closed Weak on Chicago Board

By Associated Press Leased Wire  
Chicago, Jan. 22.—Notwithstanding that some fresh advances in the price of corn took place today, a show of strength was not well maintained. Smallness of receipts were in favor of the bulls, and so too were higher quotations on hogs. Buyers, however, displayed anxiety in regard to foreign exchange weakness, fearing the effect would be to smother export demand for corn and rice. Opening prices which ranged from 1/2c off to 1/4c advance for corn, with May 1.34 1/2 to 1.35 and July 1.42 1/2 to 1.32 1/2, were followed by a setback all around to the same as yesterday's finish or below.

Oats paralleled the action of corn. After opening unchanged to 1/2c lower including May at 82 1/2c to 82 1/2c the market hardened a little and then turned weak.

Provisions were firm with hogs. Besides, predictions of a big domestic trade in packing house products were current.

Word that eastern roads had cancelled permits on grain for export was an additional incentive for selling. The market closed weak, 1c to 1 1/2c net lower, with May 1.33 1/2 to 1.33 1/2 and July 1.31 1/2 to 1.31 1/2.

## Wall St. Inactive Until Nearly Noon

By Associated Press Leased Wire  
New York, Jan. 22.—The stock market flattened out soon after the opening today, dealings falling to less than average proportions. Traders paid no attention to developments affecting values. The further decline of British and French exchange excited little interest and the six per cent opening rate for call loans was accepted as a matter of course. Minor stocks and shipbuilding fell 1 to 2 points but the only visible response to the congressional deadlock on railroad legislation was a decline of 1 1/2 points in Union Pacific. The market became a little more active at noon when the reactionary trend became more pronounced.

RHEUMATISM LEAVES YOU FOREVER

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-Four Hours.

Every druggist in this county is authorized to say to every rheumatic sufferer in this vicinity that if two bottles of Allenru, the sure conqueror of rheumatism, does not stop all agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenru has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiful and where the patient was helpless.

Allenru relieves at once. Immediately after you start to take it the good work begins. It searches out the uric acid deposits, dissolves the accretions and drives rheumatic poison out of the body through the kidneys and bowels.

It's marvelous how quickly it acts. Blessed relief often comes in two days and even in cases where the suffering is most painful all traces disappear in a few days.

Mr. James H. Allen, the discoverer of Allenru who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenru decisively cures this worst of all diseases, and he has instructed All Druggists to guarantee it in every instance.

## POLO SOCIAL CLUB—

The Woman's Social club of Polo held its annual banquet on Thursday evening at the home of Mr. and Mrs. Edward Dusing, of Stratford. Promptly at 6:30 o'clock the guests were invited to the dining room where each found his place by means of a unique place card. They were then served to a most bountiful three-course dinner. The tables were a marvel of beauty, the club colors, pink, white and green having been used in the decorations. Streamers of pink and green alternating, were caught at each corner of the table, each terminating in a large bow in the center of the chandelier. A huge bouquet of white and pink carnations and greenery was for the centerpiece of the table. Similar bouquets were used in the various rooms. The evening was spent in playing games and performing stunts of various kinds. Music was also enjoyed. Much credit is due the committee in charge, Mesdames Nettie Betebeber, Alice Davis, Grace Dusing, and Abbie Hays, for the delightful affair.

## PRAIRIEVILLE SOCIAL CIRCLE—

The Social Circle of Prairieville held its meeting Wednesday, a very pleasant session, at the home of Mrs. Geo. LeFevre. Twenty-seven members and four guests, the latter including Rev. and Mrs. E. C. Harris, of Sterling, Mrs. Lee LeFevre, of Wauwau, and Mrs. Reed, of Prairieville, were present and spent the day in relief sewing for needy families. At noon a most excellent scramble dinner was served. Plans were made at this meeting for a mid-winter picnic, to be held at the church on next Thursday, Jan. 29. All members of the society and their families are invited to the picnic. The next regular meeting of the Circle will be held at the home of Mrs. William Andrews on Feb. 4.

## ST. MARGARET'S GUILD—

Officers were elected at the meeting of St. Margaret's Guild of the Episcopal church on Wednesday evening at the home of Mrs. Gordon Utley and plans were laid for a public entertainment to be given on Feb. 4. The nature of the entertainment will be announced later. The officers chosen were:  
President—Mrs. Donichy.  
Vice President—Mrs. Babin.  
Secretary—Miss Charlotte Campbell.  
Treasurer—Mrs. Gordon Utley.  
Program Committee—Rosanna DeMont, Seville Crawford, and Madeline Coover.

## FOR RECTOR AND WIFE—

After the meeting of St. Margaret's Guild of St. Luke's Episcopal church at the home of Mrs. Gordon Utley on Wednesday evening, a pleasant surprise and appreciation party was given in the guild rooms of the church to the rector, Rev. H. M. Babin, and Mrs. Babin. A musical program was rendered by members of the choir, through the arrangement of Mr. Fahrney. Songs were given by Miss Rosanna DeMont, Miss Seville Crawford, and Miss Marcelle Kent, with piano numbers by Mr. Fahrney interspersed throughout the program. These were all delightful. Everyone was much entertained by the Scotch character songs given by Mr. Lauder. After the musical program excellent refreshments were served. Many useful and attractive gifts were received by Mr. and Mrs. Babin.

## BIRTHDAY LUNCHEON—

A party, honoring the birthday of Miss Charlotte Campbell, a surprise affair, was given at the home of Miss Campbell's parents, Mr. and Mrs. G. A. Campbell, on Tuesday evening. Mrs. Campbell served an appetizing luncheon during the evening. Miss Campbell was remembered with an attractive gift. The Misses Margaret McTague, Chippchase, Goldie Brierton, Irma Brown, Anna Marie Worthington, and Leola Rice were the guests.

## FOR MRS. MURRAY—

Old friends of Mrs. Frank Murray, now of Blue Earth, Minn., but formerly of Dixon, were given the opportunity of renewing their acquaintance with her on Saturday evening, when Mr. and Mrs. Clarence Wilson entertained in her honor. The guests numbered twenty. Social chat occupied a large place in the evening's entertainment. A scramble supper, games, and music were also enjoyed. Mrs. Murray returned to her home in Blue Earth on Monday. She was in Dixon especially to visit her father, John Wadsworth, who is quite ill.

## ENDED VISIT HERE—

Mr. and Mrs. David Miller, who have been visiting at the home of Mr. and Mrs. O. F. Goeke, have returned to their home in Davis, Ill.

## COMMUNITY CLUB NOTES—

The moral effect of good clothes, and not only that but good clothes as an incentive to higher endeavor in the line of study with consequent progress in their classes, has been noted by the teachers of the public schools as the result of the work of the Community club in outfitting some of the more needy children with comfortable and suitable clothes. This should be reward enough for the workers and incentive to more work. Just now the Community club is running short of material to be made into these little garments and again appeals to the kind-hearted public for both partially worn clothes and shoes. It is wonderful what can be done with shoes which have been discarded by their wearers for one reason or another. The heels can be lowered, new soles added, and with a bit of polish the shoes are made very presentable and will give some child good service.

## SEWED FOR COMMUNITY CLUB—

The invitation to meet and sew for the Community club, given to the members of Section 3 of the Methodist Aid Society, was accepted with alacrity by the members and many gathered Wednesday at the home of Mrs. H. A. Ahrens for that purpose. Many comfortable little garments resulted from the afternoon's labors and a number of little children will be made happy. Mrs. Ahrens served dainty refreshments during the afternoon. The next meeting of the section will be held at the home of Mrs. H. L. Fordham.

## ENTERTAINED SUNDAY—

Mr. and Mrs. C. Salzman entertained on Sunday, Mr. and Mrs. George Meyer and family, and Miss Alice Krug, of Dixon, and Mr. and Mrs. Fred Thonen, of Woodstock, Ohio. Mr. and Mrs. Thonen came from Eastland, Tex., where they visited their daughter. They left Monday for Columbus, Ohio, to visit another daughter. The first of February they plan to return to their home.

## ENTERTAINED IN S. DIXON—

Members of the Past Noble Grands club of the Rebekah lodge and their friends, the company numbering twenty-five, were entertained Tuesday evening at the home of Mr. and Mrs. Ray Shaver, in South Dixon. ## M. D. AND STAGE STAR SAY "SILK ONES" AND "PEEKABOO" NO BAR TO HEALTH

New York.—"This talk about silk stockings, low-cut gowns and peek-a-boo waists shortening women's lives, or making them susceptible to influenza, is all bunk," said Dr. Royal S. Copeland, New York Health Commissioner, when asked whether the failure of influenza to return this winter was due to greater care, particularly on the part of women, in dressing warmly.

### Women's Business

Dorothy Mortimer, starring in "Nightingale," says Dr. Copeland is right:

"Silk stockings, evening gowns, and other women's fashions which have been condemned from time to time by so-called health experts, are no more injurious to health than a bobbed hair or wrist watches!"

"Women's fashions are women's business. Women dress to be attractive, as they should. That's a woman's business. Women will always dress to make the best impression, and if the style calls for silk stockings and sleeveless gowns, you may be sure they will wear them."

### Thrown Into Ash Heap

Commenting on the varying succession of styles from tight corsets, through high heels, which have come under fire, from veils and cosmetics to silk stockings, Dr. Copeland said: "During 30 years medical experience I have seen almost every theory regarding the dangers of women's dress thrown into the ash heap of discarded medical ideas. The city woman with her silk stockings and flimsy gown ordinarily lives longer than her sister on the farm. The dull monotony of old-fashioned country life is fatal to womanhood. Insanity is far more common among the hardworking housewives of the rural districts than among the dwellers of the city."

## GUESTS FROM FARGO—

Mr. and Mrs. Edward Anderson, of Fargo, N. D., are guests at the home of Mr. and Mrs. Frank Downing.

## THIMBLE PARTY—

Miss Franc Ingraham entertained a few friends at a thimble party Wednesday afternoon.

## CASES REPORTED AS FLU MAY BE ONLY LA GRIPPE

The brand of influenza that is being reported and quarantined in Dixon has the appearance of being grip, instead of the dreaded flu, according to City Health Physician, Dr. J. B. Werren. Yesterday six cases had been reported to the city health department and were said to be thoroughly developed cases of influenza but not of a serious nature. Last evening three of these patients had no temperature at all, which discounts the influenza theory, according to the health officer. Dr. Werren is of the belief that the majority of the cases that are being reported as influenza, are but severe colds or attacks of grip. In every case the family is quarantined and every precaution taken to prevent a possible spread of the epidemic.

## New French Members of Peace Conference

By Associated Press Leased Wire  
Paris, Jan. 22.—Premier Millerand, M. Francois-Marshall, minister of finance; M. Isaac, minister of commerce and Maurice Paleologue, former ambassador to Russia, have been appointed French plenipotentiaries to the peace conference. The cabinet approved and President Poincaré signed a decree to this effect today. The new appointees replace M. Clemenceau, Pichon, Klotz and Tardieu, who resigned with their retirement from the ministry. Jules Cambon remains the fifth member of the peace delegation.

A similar decree was signed appointing Charles Jonart as the delegate of France on the Reparation. Controller General Manclair was named as assistant delegate.

## POLO MAN LOST EYE IN TUESDAY'S MISHAP

Orin Cox of Polo, R. F. D. 5, submitted to an operation at the Dixon hospital yesterday for the removal of one of his eyes, the sight of which he lost Tuesday while doing some carpenter work. A heavy nail, from which the hammer glanced as he was trying to drive it into a timber, flew with terrific force into the eye, puncturing it and causing all the fluid to run out. Efforts to save the eyeball were futile and accordingly it was removed yesterday.

DOROTHY MORTIMER

## MRS. JUSTIN E. HARLOW PASSED AWAY IN CLINTON

The sad news of the death of Mrs. Ethel Harlow, wife of Justin E. Harlow, was received here early yesterday morning in a brief message to Mrs. William Nixon, 802 East Third street. Mrs. Harlow passed away at her home in Clinton, Iowa, Tuesday night at 10:10 o'clock, death resulting from pneumonia which followed a complication of ailments.

Mr. Harlow was for a number of years in charge of a department of the Illinois Northern Utilities company here and both he and his wife enjoyed a wide acquaintance in Dixon. Two years ago he resigned his position with the local company and moved his family to Tulsa, Okla., where he accepted a position with a big utility corporation. They lived in Tulsa about a year and then went to Clinton where Mr. Harlow entered the employ of the Clinton Sugar Refining company, in the capacity of electrical engineer, which position he still holds.

The word of the death of Mrs. Harlow will be received as a severe shock to her many friends in Dixon. She was a home loving woman, who devoted her entire time and attention to her family of four small children, who together with the husband survive her. Three sons, Justin, Jr., Roger and Hewett and one daughter Theresa, the oldest being 11 years of age, survive. The funeral services will be conducted from the family home in Clinton Friday afternoon with interment in Springdale cemetery.

## Viennese Stampede to Get 3 Oz. Meat

By Associated Press Leased Wire  
Vienna, Jan. 20.—An announcement that a limited supply of meat would be placed on sale at the Central Market, three ounces being allowed per person, caused great crowds to assemble there. Forty thousand persons gained entrance to the market at 6 o'clock this morning and 20,000 tried to get in. Many fainted and were trampled by the crowds.

## IF THE EPISCOPAL CHURCH EVER WAKES UP, LOOK OUT SATAN!—"BILLY" SUNDAY

And Now "The Episcopal Church is Awake" Says Dr. Stires, Eminent New York Divine.

"If the Episcopal Church ever wakes up—look out!"

Crouching grotesquely, his face close to the platform, shaking his fist in the direction of the ether regions, "Billy" Sunday, the Baseball evangelist, once hurled this warning to the Evil One, while thousands, crowded into a great tabernacle, watched.

"That moment is near—is here!"

This is the answer to "Billy" Sunday's implied challenge. It comes from the Rev. Dr. Ernest M. Stires, rector of St. Thomas' Church, Fifth Avenue, New York; and one of New York's most noted preachers. He is a member of the Joint Commission directing the Episcopal Nation-Wide Campaign, and rector of the Every Name Campaign, in New York.

A campaign to raise \$62,000,000 in the Episcopal Church in one day—December 7; to recruit 1,500 new workers; to rouse every member to help the Church play its great part, greatly, in this age of reconstruction by expanding every phase of its activity in the next three years—upon this, which is the purpose of the Nation-Wide Campaign, Dr. Stires bases his answer to the evangelist.

In effect, Dr. Stires says to the world:

"The Episcopal Church is awake." "The Nation-Wide Campaign is urgent," says Dr. Stires, "because of the greatness of the need of this hour, I speak not of the missionary needs of the Church, but of the needs of all the world. The Church holds a position of power and influence. It must use its power to meet these needs. For the suffering, injustice and wrong of the past is still here today, crying out to us. Children are still being slain by cruel Herods."

"Roger W. Babson states that the labor problems of our time can only be

solved by the teachings and the spirit of Christ; that the need for America is not for more machinery in the organization of capital and industry, but for the spirit of true religion in the hearts of the people.

"The zero hour is here for us of the Church, the hour of the Nation-Wide Campaign"

## REGULATION OF CURTAINS SIMPLE

Many new homes have French windows, which swing out instead of sliding up and down. Lace curtains for windows of this sort are not practical and the one ordinarily used is called a Venetian curtain, made of a silk material and drawn up with a cord.

The usual method is to have a hook on the side of the window to which the cord is attached to hold the curtain at any desired height. A much more simple plan is to get the exact weight of the curtain and place inside the tasseled bag of lead of equal weight. This will allow the curtain to be lowered or raised at will and does away with the hooks, securing the curtain by establishing an even balance.

## MAN WORE FIRST SILK STOCKINGS

The wearing of silk stockings is a practice which, while started by a man, was left to women to make popular.

History records that the first pair of silk stockings were worn by Henry II. of France in 1547, but does not say that this became a practice among men.

On the other hand, in citing the fact that Queen Elizabeth received a pair of silk stockings as a gift in the year 1550, history goes on to say that she never wore any other kind again.

## BUYING POOR MATERIAL.

When prices are high, there is a  
temptation to buy material of poor  
quality. People feel keenly the need  
for economy, and jump at anything  
that seems low.

Merchants say more high priced  
goods are being sold now than ever  
before. A great deal of it is ornament-  
al stuff, bought from a desire for dis-  
play. That is the kind of extrava-  
gance that is doing great harm. Sub-  
stantial and genuine material also  
brings a high price in these times.  
Yet it is usually the best economy.  
Buying this class of goods in simple  
styles is a policy that should be en-  
couraged.

The public complains of high prices.  
The retailer feels the pressure, and  
passes the kick on to jobber and man-  
ufacturer. The latter may try to  
meet public demand by substituting  
inferior material. Many people be-  
lieve this is being done on a big scale,  
and that the average quality of goods  
is not what it formerly was.

When goods wear out soon, the  
country's replacement facilities can't  
keep up with the demand. The scar-  
city thus created sends prices higher  
still.

A period of high production costs is  
the worst possible time in which to  
buy poor material. You can't afford  
to put high cost labor into poor stuff.  
There will be nearly as much labor  
cost in the poor stuff, and the good  
article will wear two or three times  
as long. Buying the good material  
prolongs the life of merchandise, and  
thus helps give the production facili-  
ties of the country a chance to catch  
up with demand. All which must  
tend to bring prices to a more normal  
level.

If you buy goods recommended by  
your substantial home merchants,  
particularly at stores that show con-  
fidence enough in their goods to ad-  
vertise them, you can feel sure you  
are getting the kind of material you

used to have. You will thus help re-  
store the merchandise situation to a  
normal basis. If you are in doubt,  
ask your home store people. Their  
advice will be disinterested, for no  
sale is profitable to a store unless it is  
satisfactory to the purchaser.

If you want to buy economically,  
don't jump at the first low priced  
stuff you see. The way to do it is to  
watch the advertising.

You will there find plenty of chances  
offered to pick up real bargains.

## LIVING CLOSER TOGETHER.

Social chasms are threatening. They  
are like the deep crevasses in the Al-  
pine snow, which under the ascend-  
ing sun let loose the avalanche. The  
line of separation dividing wealth and  
poverty is too wide and deep. Many  
generous people have bridged it with  
kindly deeds. The selfish and lavish  
luxury of others creates a dangerous  
break in the social fabric.

Much unrest is due to pure envy.  
The poor man sees the rich neighbor  
in his elegant limousine. If he has a  
bitter and resentful temperament, he  
may resolve to pull the rich man  
down and take possession of his cars  
and palaces in the name of the pro-  
letariat. Yet wealth may have earned  
these luxuries by superior effi-  
ciency in serving the public.

The various elements of society  
should live closer together and in  
more intimate relations. The rich  
man is not necessarily called on to  
give up his fine house and live in the  
tenements. But he should know from  
personal observation how his workers  
live, and do his best to obtain for  
them a higher standard of comfort.

Selfish expenditure widens the  
chasms. People who have been able  
to conduct a big business honestly  
and efficiently are entitled to an abun-  
dant life and living and possession of  
a comfortable fortune. If they devote  
their superfluity to philanthropies, or  
render it back to the public by giving  
their service at lower prices, they get  
more out of life and win deeper af-  
fection.

The money wasted by the rich  
spendthrift, if divided up among a  
factory of workers, would not amount  
to much for each individual. But the  
spirit displayed creates ill feeling.

Those who have learned to make a  
generous return for opportunities so-  
ciety gives them, have placed both  
their business and the social structure  
on a sounder foundation.

So far no sympathy is expressed for  
the folks whose property depreciates  
because they and a lot of other people  
have sent so much money out of town  
to mail order trade.

SIMPLE HEALTH RULES  
EASY TO REMEMBER

Simple rules of health, not too hard  
to remember, may be reduced to a few  
brief instructions:

Keep serene; use moderation in  
work, play, rest, and sleep; ventilate  
every occupied room; seek out-of-door  
occupation and recreation; drink suf-  
ficient water; walk, stand and sit  
erect; breathe deeply; wear light, por-  
ous, loose clothing; eat slowly, avoid  
overeating; eat sparingly of eggs and  
meats, and eat some raw foods, some  
bulky and some hard foods.

## How Many Women Are Like This?

Can anything be more wearing for women than the ceaseless  
round of household duties? Oh! the tedium of it all—  
work and drudge; no time to be sick; tired, ailing, yet can-  
not stop. There comes a time when something "snaps" and  
they find themselves "simply worn out," and to make matters  
worse, have contracted serious feminine disorder which almost  
always follows the constant overtaxing of a woman's strength.

Then they should remember that there is no remedy like  
Lydia E. Pinkham's Vegetable Compound—the experi-  
ence of these two women establishes that fact:

Cedar Rapids, Ia.—"After the  
birth of my last child I had such  
painful spells that would make me  
entirely for my household. I suf-  
fered for months and the doctor said  
that my trouble was organic ulcers  
and I would have to have an opera-  
tion. That was an awful thing to  
me, with a young baby and four other  
children. So one day I thought of  
Lydia E. Pinkham's Vegetable  
Compound and how it had helped  
me years before and I decided to try  
it again. I took five bottles of Vege-  
table Compound and used Lydia E.  
Pinkham's Sanative Wash and since  
then I have been a well woman, able  
to take care of my house and family  
without any trouble or a day's pain.  
I am ready and thankful to swear by  
your medicine any time. I am forty-  
four years old and have used your medi-  
cine of any kind for three years."  
—Mrs. H. ROBERT, 617 Ellis Blvd.,  
Cedar Rapids, Iowa.

Sandusky, Ohio.—"After the birth  
of my baby I had organic trouble.  
My doctor said it was caused by  
too heavy lifting and I would  
have to have an operation. I  
would not consent to an operation  
and let it go for over a year, having  
my sister do my work for me as I  
was not able to walk. One day my  
aunt came to see me and told me  
about your medicine—said it cured  
her of the same thing. I took Lydia  
E. Pinkham's Vegetable Compound  
and used Lydia E. Pinkham's Sanative  
Wash and they have cured me.  
Now I do my own household work,  
washing and ironing and sewing for  
my family and also to sewing for other  
people. I still take a bottle of Vege-  
table Compound every spring for a  
tonic. I recommend your medicine  
to others who have troubles similar  
to mine and who can use my letter  
if you wish."—Mrs. PAUL PARKER,  
Rush, 1825 Stone St., Sandusky, Ohio.

A Modern Story of Home and Business

## AUNT FELICIA HAS HER "SAY."

CHAPTER 40.

"Did you and the old girl have a  
monkey and parrot time after I left?"  
Robert asked, and then I noticed he  
had been drinking.

"I had a very unpleasant time," I  
replied, with dignity.

"What'd she say to you?" his voice  
was thick.

"Everything she could think of.  
Now you have come home—"

"I'm not—you needn't say it. But  
I met the boys and we went down  
town and played pool."

"Don't you think under the circum-  
stances you might have tayed with  
me?"

"No, under the circumstances I  
think I shall play pool every night.  
Nice and warm there, everybody jolly.  
I hate this boarding house. Devilish  
place to stay. If I had a home like  
Weed and Murphy it would be differ-  
ent. But this place, bah!"

Tears rolled down my cheeks, but he  
never noticed, and soon he went to  
bed and fell immediately asleep. It  
was the last straw. I thought as I  
wiped my eyes, I had endured  
enough without having him come  
home in that condition.

In the morning I said good-bye to  
Aunt Felicia.

"Robert will see that you get your  
train. He has nothing else to do," I  
told her.

"No, now that my wife supports me,  
I have time for anything," he mut-  
tered under his breath.

I paid no attention to his muttered  
words, or to his aunt's looks, but  
went to the shop at my usual time.  
I had not felt unkindly toward her  
at any time, altho her visit had been  
prolonged and she was not the most  
agreeable person imaginable. But  
this morning I felt I hated her. In  
some way I was inclined to blame her,  
altho I knew she had nothing to do  
with Robert losing his position. What  
she had said the night before rankled.

After Robert had left us she had re-  
marked:

"I am glad Robert went out to-  
night. I want to talk to you."

"What about, Aunt Felicia?"

"Yourself, and Robert. You have  
sent me away, but I shall speak my  
mind before I go, and you will listen."

"There is no need to speak like  
that. Of course, I shall listen to what-  
ever you wish to say."

"Very well. You will be either a  
deserted or a divorced woman before  
many years go over your head. Mark  
what I say!"

so angry. After all, she was old, and

## Bolshevism Greatest Menace To Christianity, Says Teusler

Direct Attack Upon  
All Religion and  
Church Must Do  
Real Fighting to  
Crush It.

Colonel R. E. Teusler  
Director St. Luke's Episcopal Hospital, Tokyo  
and Red Cross Commissioner  
to Siberia

Bolshevism is a direct attack upon Christianity and civilization and must be fought through Christianity, declares Col. R. E. Teusler, director of St. John's Episcopal Hospital in Tokyo and Red Cross Commissioner to Siberia. Col. Teusler recently made a flying trip to the United States for consultation with leaders of the Episcopal Nation-Wide Campaign of Church expansion and with officials of the Red Cross.

"Bolshevism must be fought through Christianity," said he, "because Bolshevism is a direct attack upon Christianity and civilization. It may be an economic theory here, but I have seen it in actual practice. I have seen the looting of cathedrals, the burning of libraries, and the closing of schools. I have concrete evidence of the desecration of cathedral altars, where photographs were installed by the Bolsheviks for the playing of 'rag time' music to the tunes of which the mobs danced. And I have receipts formally issued by the Soviet governments apportioning the use of women among the soldiers after the so-called 'nationalization' of women was accomplished, also by Soviet orders.

"This work," said he, referring to the Nation-Wide Campaign of the Episcopal Church, "is greatly needed, for right here in America these Bolshevik theories are flourishing to an amazing extent. In the United States you use the term Bolshevism in an academic sense to

describe certain theories. They were theories in Russia, also, until Lenin and Trotsky got into power, since which they have become stern realities. Bolshevism as practiced there and as preached here, are as far apart as black and white. Bolshevism is murder, robbery, loot, tyranny, chaos."

It comes to Dixon from several of the large Western cities, heading east to New Boston and Philadelphia engagements. Mail orders accepted. Seat sale open.

## GIRL HELD IN ATLANTA NOT JEANNE D'KAY

Thought to Be Adventuress Seeking Some Notoriety.

By Associated Press Leased Wire  
Atlanta, Ga., Jan. 22.—Later developments practically have blasted the assumption of the police that the young woman held here is Jeanne Anna DeKay, missing protegee of Jane Addams, of Hull House, Chicago. The woman who was arrested at a local hotel for masquerading in an aviator's uniform, at first told the police she was Miss DeKay, then contradicted herself and under cross examination, the police claim she told several different stories.

A description of the woman under arrest was sent to Chicago and word was sent back that it did not tally with the missing settlement worker.

By Associated Press Leased Wire  
Chicago, Ill., Jan. 22.—Miss Jane Addams today said she felt certain that the young woman held at Atlanta, Ga., was not the missing Jeanne DeKay, but "an adventuress" who was in Chicago January 5.

"She called me up and said she could show me where Jeanne was," said Miss Addams. "An appointment was made and kept by Mrs. Gertrude Howe Britton and John DeKay, Jeanne's brother. A few minutes' talk convinced both she was an adventuress seeking notoriety."

## WOODYATT TO PLAY IN STATE TOURNEY

By defeating all comers in the district three-cushion billiard tournament at Rockford the first of the week Chalmers Woodyatt of this city earned a position in the state championship tournament to be conducted at the Bensinger parlors, 9 West Mon-

roe street, Chicago, Friday and Saturday evenings, where he will play as the representative of the Lyons parlors in this city. A diamond medal and the state championship go to the winner of the Chicago tournament.

### VINEGAR ON HANDS

An admirer of beautiful hands can easily obtain them if a bottle of vinegar is kept handy. After dishwashing, or any work which requires the hands to be put in water, such as preparing the meals, if a few drops of vinegar are rubbed briskly into the skin of the hands and arms it will keep them white and soft. A few drops of toilet water will take away the unpleasant odor if so desired. Another little habit which will help to keep hands from chapping is to rinse them with cold water before drying.

### BANANA FLOUR.

Will the price of flour made from wheat be lowered when people begin to use banana flour? This flour is said to be made in Jamaica. If its price leads others to venture into this new field, banana flour may become a familiar sight on the market.

### BRANDY REVIVES.

London.—"I poured brandy down its throat and it swam," declares Stanley Watling, who says he caught a 20-pound pike at Norfolk and found it contained a small fish. He says so far as he knows the little Jonah is still alive, even after the brandy.

# MOLINE UNIVERSAL TRACTOR

## Are You Sure The Tractor You Buy Will Be A Profitable Investment?

It will not, if you cannot cultivate your corn with it, as you will have to keep about as many horses as heretofore—then you will have the expense of both horses and tractor.

It will not, if it requires an extra man to operate it when used in connection with harvester, you are worse off than when you used horses if you do for it will surely cost you \$6.00 a day to pay and board a man and you may be fortunate to get one at any price.

## Here are a few exclusive features of the Universal which equal exclusive results

1. Does all field work, including cultivating, harvesting and belt work.
2. Both tractor and implement operated by one man.
3. Tractor and implement form one unit.
4. Operator sits on implement at center of all controls of tractor and implement.
5. Operator sees his work and is not constantly looking ahead and then back to see that both units are working. "Foresight is better than hindsight."

No duplication of any work by horses.

A saving in labor.

Entire outfit turns short, backs as readily as it goes forward and makes fence corners produce.

Ease of operation.

Better work.

Ask us for the names of customers living within an hour's drive of Dixon who have been Universal farming since 1917 and who do not take a team in the field except to pull endgate seeder and corn planter (both of these jobs can be done with the tractor, if desired.)

First cost is but a trifle more than cheap makes of tractors and this you save over and over as you eliminate horses and eliminate extra help on the farm.

Universal Tractors are a favorite with the ladies as when you cut down the help outside you lessen the burden and help within the house.

Come in and have the power of a correct principle  
explained to you

ITALY WILL DEMAND  
ADHERENCE TO PACT

Premier Nitti Says His  
Country Must Con-  
trol Fiume.

By Associated Press Leased Wire  
Paris, Jan. 22.—Italy will demand of France and England the carrying out of the treaty of London only when all other means of settling the Adriatic question have been tried and found futile, according to a statement made by Premier Nitti to a representative of the Echo de Paris. The correspondent accompanied the Italian premier from this city to Nice and was told by Signor Nitti that the trip to Rome was brought about solely by the railroad strike in Italy.

"The reply of the Jugo-Slav government to the note of the supreme council relative to conflicting claims on the eastern shores of the Adriatic does not satisfy us," the premier is quoted as saying, "but we have gone to the extreme limit in making concessions. The world should realize that for the sake of Fiume we renounce Dalmatia which was given to us by the pact of London. We hope that after a few days further reflection the Jugo Slavs will send an acceptable answer. They and we occupy the greater part of the Adriatic coast and have mutual interests. I wish to facilitate these relations. We will find an agreement. It must be found. We will demand execution of the London pact only at the last extremity."

TONICS FOR PLANTS  
Plants sometimes turn brown and lose their vitality in the winter. This may be overcome by putting coffee grounds into the pot from time to time, allowing a little of the liquid to moisten the soil. Plants should not be watered often than twice or three times a week. Neither should they be allowed to stand in a draft.

BULLETIN.  
By Associated Press Leased Wire  
Cameron, Mo., Jan. 22.—Captain Jacob L. Milligan, of Richmond, Mo., was nominated for congress by the democrats of the third Missouri congressional district on the 302nd ballot this morning. The nomination came after a deadlock which had lasted since yesterday. Voting continued all night.

By Associated Press Leased Wire  
Cameron, Mo., Jan. 22.—After balloting all night democrats of the third district in convention here to nominate a candidate to succeed Joshua W. Alexander, secretary of commerce, as representative in congress, were still in session early today with no prospect, leaders said, of breaking the deadlock.

The net result of almost 300 ballots was the withdrawal early today of Charles L. Eicklin, of Maysville, one of the five candidates for nomination. Joseph L. M. Milligan, of Richmond was the leading contestant, with Charles E. Yancey, of Liberty, and J. W. Sullinger, of Albany, pressing him closely.

WHEN TO BRUSH HAIR  
One of the A. B. C's in the care of the hair is that it should never be combed or brushed while damp. The best method is to thoroughly dry the hair by brisk rubbing, and when dry, to brush or comb it. Retiring with the hair damp will devitalize it and cause it to fall out. Curbing the hair when it is not dry causes it to break, and the steam which necessarily rises from the hot iron is harmful to the scalp.

GOOD RECORD BY  
CHICAGO VOTERS  
IN CLEANING UP

By Associated Press Leased Wire  
Chicago, Ill., Jan. 22.—Chicago is the one great American city which in the last quarter century "has cleaned up its council" and ruled itself "without any outside help," according to the twenty-fifth annual report of the Municipal Voters League, made public today.

"Thirty-five years ago the low point had been reached in local government in great American cities," the report said. "They were almost universally extravagant, inefficient

and corrupt. In most cases, despairing of other remedy, they turned to the state for aid, and from that time they have been largely governed not from their city halls, but from their state capitols.

"Chicago is the striking exception. Instead of flying to the legislature the citizens took hold of their own problems."

Of thirty-five retiring aldermen thirteen are marked "Excellent" by the league and thirteen are as "Good Record," or "Fair" or "Improved."

During periods of commercial depressions pennies accumulate in the treasuries, but when trade revives they flow out rapidly.

## PEOPLE'S COLUMN.

Editor of Telegraph: "Cigarettes and Crime"—D. H. Kress, M. D.

"During the time when Chicago was menaced by young automobile bandits, who, by their daring crimes, terrorized the inhabitants of the city. I said to a detective, 'Have you not observed that in nearly every case these youthful criminals are cigarette fiends?' to which he replied, 'In every case, without an exception.' This may seem an extreme statement but coming from one who has an opportunity of getting things at first hand it is significant. As far as my own observation has gone in my study of the criminally inclined among the boys and young men of our large cities, I have been forced to recognize that a very intimate relation exists between crime and the cigarette habit."

"I do not wish to be misunderstood. I do not say all cigarette addicts will become criminals, or that all will develop criminal tendencies. But that the cigarette produces a moral degeneracy which may ultimately

lead to criminal acts, of this I am fully convinced.

"I could almost go as far as did the old time New England preacher who became unduly involved in a heated political debate, and on being accused of having affirmed that 'all democrats are horse thieves,' in self defense in his opening remarks to his sermon on Sunday morning said, 'I have been accused of saying all democrats are horse thieves. I said no such thing. What I did say was, 'All horse thieves are democrats,' and that I can prove. All cigarette smokers are not criminals, but that practically all criminals are cigarette smokers, I can prove."

"In fact it can be demonstrated by anyone who wishes to take the time to investigate by calling upon judges of juvenile courts or inquiring of superintendents of reform schools or other officials who have to deal with youthful criminals.

"Just what there is about the smoke of the cigarette that causes this moral degeneracy may never be fully demonstrated to the satisfaction of all. We are not so much concerned about this in fact. Neither do we feel very much concern as to what each particular brand is made of. We may never know this, but we do know what they make of the boys who smoke them. 'Ask dad, he knows' what a useless, soulless, worthless thing the cigarette is capable of making of the most promising boy, if the habit is formed early in life.

"Most pathetic appeals have come to me from fathers and mothers for help which I have been unable to give. Nothing can be done to help a boy who does not want help and it is almost an impossible proposition to convince the young cigarette addict that

AMERICAN ELK NEAR EXTERMINATION AS RESULT OF WINTER

Early and Continued Cold Drive Herds Into Hunters' Hands.

Washington, D. C., Jan. 22.—“A tragedy that all lovers of wild life, big game, and noble animals have feared for years now is being enacted,” says a bulletin from the Washington headquarters of the National Geographic Society.

“The American elk is being driven from his last stronghold in Yellowstone National Park, at the top of the United States,” and faces slaughter, freezing and starvation in the borderlands to the north and south of the park. Horace H. Albright, superintendent of Yellowstone National Park, who is keenly alive to the great danger, furnished the material for this bulletin.

Early Winter Menace.

“The menace to the elk arises because of the unprecedented early winter this year. On October 22 occurred the worst snow storm Yellowstone Park has known since one far later, in January, 1891. The elk's existence depends upon his freedom to wander from the highland snows to the shelter and forage of the valleys below. The early blizzard drove him outside the protection of the national reservation into the midst of the open season for hunting in the two adjacent states.

“The southern herds followed the rivers, which flow out of Yellowstone in all directions, to the famous Jackson Hole country, once the haunt of bandits and cattle thieves, where human life now is safe, but where this self-same influx of civilization spells death for the elk. The northern herds descended into the Montana borderlands where settlements have flung a wild animal barrier across the edge of the park.

Wholesale Slaughter.

“Wholesale shooting of the elk was the first consequence. Much of this shooting, according to reports received in Washington, did little credit to sportsmanship. Marksmen did not trouble to follow and capture animals they had wounded. Their sheltered life in the national reservation has made the elk tame and they wandered into many a backyard to find unexpected enemies. It is estimated that between 5,000 and 10,000 elk already have been killed off.

“But this shooting does not mark the climax of the tragedy. As noted, the settlements have cut off the grazing lands. There is some provision for the southern herds, though woefully inadequate, but practically none for the northern herds.

“The protection afforded the elk which strayed into Wyoming is that of the state game preserves, known as the Hoodoo, Shoshone and Teton. Further protection is that afforded in a limited way by the Winter Elk Refuge at Jackson, Wyoming, founded by the Biological Survey. The refuge is raised for feeding the elk, but far from enough is on hand for the feeding of the thousands forced out of the park, and even out of the reservations by the early winter. The severity of the weather may be gauged from the fact that snow was from 15 inches to 4 feet deep, and the temperature went to six below zero in some localities.

Into Open Season.

“In ordinary winters the animals remain in the park; in more severe ones, when the cold and snows come late, the preserves and the refuge have taken care of many of them. They had not come down until after the expiration of the open season for hunting, December 1, in Wyoming, and recently extended until December 25, in Montana.

“Already steps are being taken, in the face of this critical emergency, to save the elk, just as the native Indian, the indigenous buffalo, and those insensate patriarchy, the sequoia trees.

BATTLE OF POLITICS

Principles in the Caillaux trial. Left, Mme. Caillaux and the man on trial. Right (top to bottom), Malvy, the banished minister of interior, with whom Caillaux is charged with having dealt; M. Dreyfus, now defending Caillaux; Premier Clemenceau, chief accuser of Caillaux.

Paris, Jan. 19.—France is preparing for the greatest battle of politics, policies, intrigues and attacks ever experienced in the nation's history.

Joseph Caillaux, former premier and minister of finance, charged with alleged treasonable relations with the enemy, will come to trial before the senate on January 14. Then will begin revelations that threaten to expose either the secret intrigues of the present Clemenceau ministry and the wrong done a peace-loving and peace-seeking leader, or the danger that confronted the French people during the Caillaux term of office.

Intertwined in this great political tangle is a story of love that ended with the murder of Gaston Calmette, who was saved in time to avoid their complete extermination.

These efforts have a three-fold objective. The first looks toward the inclusion of the great game preserve about the Teton Range and the headwaters of the Yellowstone, an area of some 1,200 square miles, in Yellowstone Park. Incidentally the haven afforded for the elk is but one argument for this addition to the park, now that recent explorations have shown the region south of Yellowstone to be a land of natural beauty and more rugged scenery than the marvelous wonders of the Yellowstone itself.

“An effort is being made to enlarge the elk refuge, so that when the animals are driven even farther south than the park addition would extend, they still may be cared for despite the encroaching settlements. A third line of effort looks toward a similar farm in Montana. Agitation for more stringent state game laws, which would include protection of females, marks another possible phase of the movement.

Was Widest Ranger. “Once the elk was the widest ranger among the American hoofed game animals. From Canada to points near what now is the Mexican border,

HARMON

Louis Gerhardt is to appear here with his concert party Monday evening, Feb. 2, at Long's hall. Mr. Gerhardt started with the Midland Lyceum Bureau ten years ago this season with that famous male quartet known as the Melodians. Doubtless some in this vicinity have heard him as the basso and story teller of that organization. During the recent war Mr. Gerhardt devoted a large part of his time to the entertainment of the boys at various camps. He resumed his work with the Lyceum Bureau after the signing of the armistice, with a company of his own. You will thoroughly enjoy Mr. Gerhardt for his wonderful bass voice, his story telling, his wholesome personality and his “cello obligatos, which blend beautifully with his mellow voice. Orla Gerhardt is the reader and accompanist of the party. She has met with wonderful success as an instructor in expression and dramatic art. During many seasons in chautauqua as a character impersonator she has been proven one of the best. Glen Ward, the third member of the company, possesses an unusually sympathetic tenor voice and as a ballad singer has few equals. His pleasing personality and beautiful saxophone music have won him much popular praise. The Gerhardts would be glad to meet anyone in the community with promising talent, either in voice or dramatic expression. Remember the date, Feb. 2, at Long's hall in Harmon.

A number of men enroute to a wake Sunday evening in a bob sled met with an accident which might have proven serious. The team of horses owned and driven by LeRoy Kent, became frightened at some object along the highway and the box was thrown from the sleds and two of the men were buried in a deep snow drift. Mr. Kent succeeded in quieting the horses and tying them to a tree, hastened to the scene of the accident and succeeded in extricating the men. Dick Drew and Joseph Canlan were considerably shaken up by the experience and are still somewhat lame.

A number of Harmonites attended the play given in Walnut Friday evening by the Home Talent Company. All report a most delightful evening. Julius Meckel and James Long spent Saturday in Dixon.

Mr. and Mrs. George Long entertained at dinner Sunday Mr. and Mrs. W. H. Kugler and sons, Frank Kugler, Mr. and Mrs. Leonard Segro, Mrs. Winnie Kugler and E. T. Duntling.

Clarence Kent spent the week end with friends in Dixon.

Mrs. Winnie Kugler is once more confined to her bed with a severe cold.

Patrik Blackburn, who has been very ill of pneumonia, is reported to be somewhat better.

Miss Elsie McCormick spent the week end at home.

Mrs. L. H. Perkins was badly burned recently when a lamp exploded near a stove. The flames enveloped her and before Mr. Perkins could extinguish them she sustained injuries about the face and hands. The burns were fortunately not very deep, owing to Mr. Perkins' presence of mind in smothering the flames with an overcoat. Dr. McCoy was called to
